4.0 SOFT SKILL PROGRAMME

For a long time the focus in industry and related fields was on 'hard' skills. These skills were more job-specific and were actually related to production. However, in the field of employment, the employers today are looking for the candidates who have mastered the soft skills and have professional training in personality development. Today, achieving all-round development requires not only technical skills but also soft skills, which prepare the candidates for the job market in the new global arena. Development of soft skills and personality is becoming increasingly important as there is intense competition for the posts available.

It is now well-established that many students who otherwise perform well in the traditional examination are lacking in communication skills. The objective of this course is to train the students in soft skills and develop their personalities in order to empower them and raise their awareness. This will also help them boost their confidence by developing competence by communicating in English. This course will also help the students increase their employability potential and face the challenges of the present times. The students will develop diverse range of skills such as communication, strategic-planning, negotiation, self-awareness, analytical thinking, leadership skills, team-building, etc.

Our university has established SWAYAM-NPTEL local chapter since May 2018. The link for it is : https://nptel.ac.in/LocalChapter/college_homepage.php?Collegeid=1871. With the inception of this local chapter and the huge response received from our students our local chapter has been recognized as 'Active local chapter' by SWAYAM-NPTEL in the very first semester. The link for SWAYAM/ NPTEL on our university webpage is <http://www.srtmun.ac.in/en/swayam-nptel.html>.
