**ACTION TAKEN REPORT
ON
FEEDBACK PROVIDED BY TEACHERS**

YEAR 2014-19

SWAMI RAMANAND TEERTH MARATHWADA UNIVERSITY, NANDED

ACTION TAKEN REPORT ON TEACHERS' FEEDBACK YEAR OF ASSESSMENT: 2014-15

Feedback/Suggestions	Action Taken
Schools should adopt various techniques of internal assessment other than unit tests	School of Chemical, Computational and Earth Sciences have started to adopt various tools of internal assessment along with unit tests
Enhancement of ICT component in the curriculum is needed. It should be in more practical way.	Practical component of ICT is improved and requirements in this regards are communicated to administration
Workshop and focused group work is necessary in designing effective curriculum	All the faculty members have been involved in syllabus revision
Electives can be offered within these programs as student profile is varied. Also some electives of these programs can be offered as open electives to campus PG programs.	Schools have been adopted credit system and students are encouraged to opt electives intra and interschool courses.
Specialization within the subject should be incorporate.	New electives within the subject will be proposed in BoS

ACTION TAKEN REPORT ON TEACHERS' FEEDBACK YEAR OF ASSESSMENT: 2015-16

Feedback/Suggestions	Action Taken
<p>Fractional Calculus is an emerging field, so we must have paper on Fractional Calculus Now a days, Latex is very useful for typing so our students must have practical in Latex</p> <p>Multivariate Analysis paper required the knowledge of Linear Algebra, Dist.Theory and Inference, so it is good if we shift this paper in sem-IV.</p>	<p>School of Mathematical Sciences have prepared proposal for upcoming BoS which have courses in areas of emerging field like Fractional Calculus , Multivariate analysis etc.</p>
<p>Numerical analysis paper is useful in NET/SET, in next revision there must be a paper or practical on Numerical analysis</p>	<p>New revision in mathematical courses will be in tune with NET/SET syllabi.</p>
<p>Courses of Geography should be filled and curriculum must be updated with new skill update</p>	<p>School of Earth Sciences will revise the syllabi of Geography with emphasis on skills components.</p>
<p>Research aspect of the curriculum is need to be designed in activity based form</p>	<p>School of Educational Sciences will revise research component of MED and MPED courses in tune with NCTE guidelines</p>

ACTION TAKEN REPORT ON FEED BACK PROVIDED BY STUDENTS, TEACHERS, ALUMNI,
EMPLOYERS AND PARENTS

YEAR OF ASSESSMENT: 2016-17

Feedback	Action Taken
Now a days, Latex is very useful for typing so our students must have practical in Latex	Practical component of mathematical courses will include Latex
Multivariate Analysis paper required the knowledge of Linear Algebra, Dist.Theory and Inference, so it is good if we shift this paper in sem-IV.	The change in structure of Statistics course will be proposed in the upcoming BoS
1) Cryptography having many applications so my suggestion is this paper should be in the syllabus. 2) Practical paper on Scilab must be there because it is free software.	New course on Cryptography in the M.Sc. Mathematics program will be proposed in upcoming BoS
There should be Subject specific syllabus as PG class is Concern, instead of teaching a paper to class of 100 students. There should be limited students in a class sothat the progress of a student in a particular theory or practical can be well monitered.	School of Life Sciences is preparing proposal for upcoming BoS which will incorporate the specializations within the subjects.
Not consulted while framing of syllabus	Suggestions from all the stakeholders will be gathered for upcoming revision of the syllabi
Work shop should be conducted to encourage incorporation of ICT in teaching learning.	ICT component in the courses of Marathi subject will be with revision in the syllabi in upcoming BoS meeting.

ACTION TAKEN REPORT ON FEED BACK PROVIDED BY TEACHERS YEAR OF ASSESSMENT: 2017-18

Feedback	Action Taken
ICT facilities are really mere in order to facilitate smooth running of online courses in Biotechnology department.	ICT requirements for Biotechnology courses have been communicated to concerned administrative section of the university.
Need to develop new resources of learning and strengthen laboratory facilities in the school of Chemical Sciences.	Requirements are communicated to library and concerned administrative section
syllabus of Applied Economics is based on applied part	Changes in the courses of Applied Economics and Social Work will be proposed in upcoming BoS meeting
There should be simulated procedure for updating the syllabus from the stakeholders.	Schools are encouraged to gather feedback from different stake holders.

ACTION TAKEN REPORT ON TEACHERS' FEEDBACK YEAR OF ASSESSMENT: 2018-19

Feedback/Suggestions	Action Taken
It is observed that integration of entire syllabus and it's pure evaluation for student progression is rare practice, no vision is observed while framing course structure	Syllabi have been revised with clear vision of learning outcomes (Program Outcomes & Course O) Outcomes) and approved by BoS for its implementation from academic year 2019-20
ICT facilities are really inadequate in order to facilitate smooth running of online courses.	ICT requirements have been communicated to concerned administrative department
More involvement of group is needed for making the syllabus more effective	All the faculty members have been involved in syllabus revision
The University is to be supported more substantially by the government so as to develop teaching and research facilities.	Proposals for Language laboratory , research projects are submitted to different agencies
Credit system should be adopted for certificate, diploma and advanced diploma courses. Electives can be offered within these programs as student profile is varied. Also some electives of these programs can be offered as open electives to campus PG programs.	CBCS is adopted for entire programs of the school Elective and open elective courses have been offered in large numbers
The contents are not updated as they are required to be according to new times, research and development in different areas of knowledge & Education.	Core courses , Tool courses and Elective courses are revised in response to the wide changes in the field of education. Contents of modules have been revised in many aspects.
Specialization within the subject should be incorporate.	Elective and Open Elective courses have been introduced to enhance the knowledge and skills in various specialized areas of the subject.
Syllabus should be based on applied knowledge	Provision for Field activities, Project works are mandatory component of curricula
Addition of new papers making more relevant to need of the society is required	Syllabi have been revised with introduction of new courses
